Elektro is

- A multidisciplinary exhibition presenting the whole range of equipment and solutions for power engineering, manufacturing industries, construction, transport and urban infrastructure
- More than half a century of history. Elektro has been a meeting place for professionals and experts of the electric power industry since 1972
- Russia's largest exhibition for the electrical industry

Product Sectors

Electric power industry

High voltage equipment

Low voltage equipment

Lighting engineering

Cabling and wiring products

Electrical installation products and tools

Wiring accessories

Metering and monitoring equipment

Building automation. Energy efficiency

Participating countries

350 companies from 6 countries

National pavilions of China and Türkiye

Visitors

Rosseti, Level Group, Samolet Group, X5 Group, NAMI, Kaspersky Laboratory, Lukoil-Energoseti, MOEK, Inter RAO, PIK, Sheremetyevo International Airport, OZON, Sberbank, Holding T1, Moscow Metro, Megafon, ER-Telecom Holding, Rostelecom, etc.

Visitors by interests

Electric power supply	60%
Low voltage equipment	59%
Cabling and wiring products	42%
Electrical wiring tools and accessories	41%
Industrial automation and dispatching	39%
Lighting engineering	38%
High voltage equipment	38%
Electrical installation products	38%
Building automation. Energy efficiency	37%
Metering and monitoring equipment	35%
